DETAILED ACTION

1. Claims 1-12 are pending.
2. Claims 5, 6 and 8-12 are withdrawn from consideration.
3. In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product are found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowable product claim will not be rejoined. See MPEP § 821.04(b).
4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
5. Applicant's arguments filed August 8, 2006 have been fully considered but they are not persuasive.
6. Claims 1-4 and 7 are again rejected under 35 U.S.C. 102(b) as being clearly anticipated by Brouwer et al (Reference N, cited by the Examiner).

Response To Applicants' Remarks about

The Rejection Under 35 U.S.C. 102(b)

7. Applicant has amended the proviso of Claims 1 and 2 to disclaim compounds of a particular substitution pattern wherein R8 is substituted or unsubstituted NH-phenyl and wherein either the nitrogen atom or the phenyl ring is substituted or unsubstituted. Applicants believe this amendment is sufficient to eliminate any overlap with the compound genus and/or species disclosed in Brouwer.

It is the Examiner's position that the:

- The proviso does not distinguish every compound as disclosed by the Brouwer et al reference.
- The Brouwer et al reference teaches the following compound disclosed by the chemical name 2-chloro-N-[[[4-[[[(4-chlorophenyl) propylamino] carbonyl] amino]-3 -(trifluoromethyl)phenyl]amino]carbonyl]-benzamide ,which is depicted below

- At page 4 of Brower et al, line 7, see compound (63).
- The claimed proviso states the radicals do not have the following meanings at the same time: R6 is H or CF₃; R7 is H; X is O; Y is O or S; R8 is

substituted or unsubstituted NH-phenyl; wherein either the nitrogen atom or the phenyl ring is substituted or unsubstituted.

➤ To compare with the instantly claimed compounds, the radical R3, R4, R5, and R6 can represent CF₃; R8 is N(alkyl)-phenyl.

➤ The proviso does not exclude 1) the radical R3, R4, and R5 is H or CF₃ and 2) R8 is N-alkyl.

➤ As such, the rejection under 35 USC 102 (b) is maintained.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
